Outcome of the Product Review and Fair Value Assessment

As a result of the product governance activities undertaken across this product we can confirm:

- 1. The outcome of the fair value assessment found that this product provides fair value, which is based on Pen's review of information related to sales practices and services, claims, complaints and market intelligence.
- 2. There is no evidence that the product is not suitable for the customers it is intended to be distributed to.
- 3. The intended distribution strategy remains appropriate, subject to distributors not charging customers additional fees that bear no reasonable relationship to the service(s) provided, or the overall cost of the product.

Fair Value Outcome Statement

Product Fair Value Outcome – Methodology

Pen has completed Fair Value Assessment work on products we manufacture. This is based on groupings of products which may be similar in features and are intended to be distributed to similar target markets. This Product Fair Value Outcome Statement is not intended to replicate our Fair Value Assessments, but sets out the approach taken and the outcome of the assessment.

Distributor Remuneration

Pen agrees commission rates with each distributor and as part of the Fair Value Assessment process has requested details of any additional fees that may be added in the distribution chain. The fee details received have been analysed and if Pen considers these could impact the value of the product this would be raised directly with distributors.

All distributors should be able to:

- Confirm annually that the commissions and fees they charge are reasonable relative to the service(s) they provide and the total cost of the product to the customer; and
- Justify that commissions and fees they charge are fair, and support the intended value of the product.

How Pen Mitigates Risks to Product Fair Value

Pen's commission structure is intended to ensure that it reflects product features and benefits and the services we provide, which support product fair value. Pen does not benefit from distributors increasing or decreasing their own commissions/fees.

Pen has taken steps to validate that distributor commissions/fees charged are within a reasonable range and in line with usual market practice, in order to ensure the value of our products is not diluted.

How Pen Assesses Value

Pen's product governance and oversight process requires a full review of all product groups at least annually to determine if the product offers fair value to the customer.
